

WORKSHEET TWENTY- FOUR

Grandes Marques

While the champagnes of many Grandes Marques have already been experienced via the suggestions in previous worksheets, why not select a bottle of champagne from perhaps a lesser-known Grande Marque that is readily available to you, and use one of the tasting matrices in the Appendix (perhaps the 100-point tasting sheet) for enjoying a comparison?

My choices, to provide an even representation of Houses through all the tastings in this book, would be a non-vintage selection from Houses that, deserving as they are, have not featured in number in our study as yet.
